Education

Indian Institute of Technology (Indian School of Mines), Dhanbad

Bachelor of Technology in Chemical Engineering (CGPA: 8.81 / 10.00)

2025 – 2029

Dhanbad, Jharkhand

Projects

Bharat Heritage Museum – Digital Transformation Strategy | Product Strategy, RICE, Growth

- Developed a 3-pillar transformation strategy spanning Visitor Experience, Cultural Community, and Revenue Diversification to address passive engagement, low repeat visits, and limited digital reach.
- Prioritized digital companion, AI kiosks, gamified learning, memberships, and partnerships using RICE; defined Engaged Heritage Visitors (EHV) as the North Star Metric with a 36-month implementation roadmap.

Book My Mentor – Product Strategy & Growth | Customer Discovery, RICE, GTM

- Analyzed customer segments, personas, product experience, and competitive landscape to identify key friction points across discovery, trust, payments, and career opportunities.
- Prioritized product opportunities using RICE and developed a GTM strategy, customer journey, business model, and KPI framework focused on acquisition, activation, retention, and conversion.

PMAF – Pharmaceutical Market Attractiveness Framework | Python, Data Analytics, Streamlit

- Built a district-level market intelligence framework for Sun Pharma by integrating 5 public datasets into 851 harmonized State–District records with 53 engineered features across 6 analytical pillars.
- Developed Overall, Chronic, and Acute market-attractiveness scores with district rankings and an interactive Streamlit dashboard for market comparison and territory planning.

ISM Pulse – Campus Community Platform | Product Development, Firebase, JavaScript

- Built a centralized campus platform featuring Confessions and Marketplace to address fragmented campus information and improve discoverability of student resources.
- Designed information architecture and navigation around simple, safe user interactions, using HTML, CSS, JavaScript, and Firebase to build and deploy the product.

Technical Skills

Languages: Python, C++, C, SQL, MATLAB

Tools & Technologies: Git, GitHub, Streamlit, Firebase, Figma, Canva, VS Code, Codex, Claude

Product & Analytics: Customer Discovery, User Research, Product Strategy, RICE Prioritization, Competitive Analysis, GTM Strategy, Roadmapping, Data Analysis

Achievements

MuseumX Case Competition: Top 8 Finalist among 540+ registrations (Hosted by IIM Bangalore)

Book My Mentor Product Challenge: Top 9 nationally among 250+ teams

Trilytics'26 Analytics Case Competition: Advanced to Round 2 (Case Submission) among 9,600+ participants (IIM C · IIT KGP · ISI × Sun Pharma)

LeetForces Promptathon 2026: 1st Place

Social Engagements

Club Member: FotoFreaks – Official Photography Club, IIT (ISM) Dhanbad

Creative Project: FramedEchoes – Curating visual stories through street and conceptual photography
