

Product Strategy & Growth Recommendations for *Book My Mentor*

PREPARED FOR PRODUCT CARNIVAL – NATIONAL PRODUCT MANAGEMENT CHALLENGE

Customer Discovery • Product Analysis • Strategic Recommendations • Go-to-Market Plan

Manmohan Adhikari

B.Tech, Chemical Engineering,
IIT (ISM) Dhanbad

Customer Segmentation

Based on our product audit, Book My Mentor primarily serves two high-intent customer segments with distinct goals, motivations, and buying behaviors. Understanding these segments enables more targeted product and business decisions.

Customer Attribute	 College Students & Fresh Graduates	 Career Switch Professionals
Demographics	19–22 yrs, pre-final/final-year engineering & business students, Tier-1/2 India	23–28 yrs, working professionals in non-PM roles, Tier-1 India
Occupation	Full-time student, often freelancing/building side projects	Software engineer, analyst, marketer, support/ops exec
Goals	Stand out for placements/internships with a resume-ready credential	Formally transition into a Product Manager role
Motivations	FOMO on peers building portfolios; wants structured shortcut to industry skill	Feels capped in current track; PM seen as higher-growth, higher-pay path
Challenges	No money of their own, limited real project exposure, information overload	Limited free time, needs proof of PM skill without quitting current job
Buying Behaviour	Price-sensitive • Relies on peer reviews • Prefers free trials	Outcome-driven • Certification • Placement support
Digital Behaviour	Instagram, YouTube, WhatsApp groups, campus communities	LinkedIn, Reddit, Google search, PM newsletters

Key Insight :

While both segments seek career growth, students prioritize affordability and placement readiness, whereas professionals prioritize credibility, mentorship, and measurable career outcomes.

Customer Personas

The following personas represent the two highest-intent users identified during customer discovery. They capture the goals, motivations, and pain points that shape Book My Mentor's product decisions.

Priya Sharma

21 · Final-year B.Tech, Tier-2 college

🎓 Student 🎯 Placement Seeker 📍 Tier-2 💰 Budget Conscious

GOALS

Build a credible **Product Management portfolio** to stand out during placement season.

FRUSTRATIONS

YouTube/Coursera content is either too generic or too advanced; no way to prove she's applied it

NEEDS

A structured curriculum + a certificate + a real project she can show recruiters

PREFERRED PLATFORMS

Instagram | YouTube | LinkedIn | WhatsApp

SUCCESS CRITERIA

Secure an APM/Product internship within one placement cycle.

Rohit Verma

25 · Software Engineer, mid-size product company

💼 Working Professional 🚀 Career Switch 📍 Tier-1 ⌚ Time-Constrained

GOALS

Move internally or externally into an **Associate PM role** within 12 months

FRUSTRATIONS

Bootcamps feel expensive and theory-heavy; unclear which certifications recruiters actually value

NEEDS

Mentor access for real feedback, a portfolio-worthy case study, and interview prep

PREFERRED PLATFORMS

LinkedIn | Reddit (r/ProductManagement) | Google search, PM newsletters

SUCCESS CRITERIA

Lands an internal transfer or external APM offer within 2 quarters

Problem Prioritization (RICE Framework)

Reach & Impact: 1–10 | Confidence: % | Effort: Person-weeks | $RICE = (Reach \times Impact \times Confidence) \div Effort$

#	Product Opportunity	Evidence from Product Audit	Reach	Impact	Confid.	Effort	RICE
 P0	Manual payment flow despite "Secure Checkout" messaging	Enrollment page promises secure checkout but requires users to submit a form and wait up to 24 hours for payment instructions.	9	10	90%	2	40.5
 P0	Unclear product positioning (Learning platform vs Career platform)	Multiple primary CTAs (Courses, Jobs, Mentorship, AI Toolkit) create an unclear value proposition.	10	8	85%	3	22.7
 P1	Weak trust signals across the platform	Inconsistent branding (header vs footer logo), visible watermark/artifact on a team image, and success claims without supporting proof reduce credibility.	8	7	85%	2	23.8
 P1	Poor Jobs & Internships browsing experience	Dense list layout with limited filtering and weak visual hierarchy.	7	6	80%	3	11.2
 P2	Pricing presentation can be optimized	Course pricing and value communication could be tested to improve conversion and perceived value.	5	3	70%	2	5.25

Key Insight:

Trust and conversion gaps—not missing features—represent the largest opportunity for improving enrollment, credibility, and long-term user retention..

Problem Landscape (Customer Problem Matrix)

Problems were categorized by customer urgency and business impact to distinguish immediate product improvements from long-term strategic opportunities.

 Immediate Pain Points Known to customer, urgent Need: Portfolio credibility Students actively seek portfolio-ready projects and mentorship to strengthen placement outcomes.	 Strategic Opportunities Known to customer, long-term Need: Long-term career growth Career-switch professionals require sustained mentorship and long-term career guidance beyond a single course purchase.
 Hidden Pain Points Unaware, low urgency Need: Awareness Learners under-value how much recruiters weigh live-project evidence over certificates alone — not yet on their radar.	 Emerging Needs Unaware, will surface later Need: AI-era differentiation As AI automates entry-level coding/analyst work, both segments will need a differentiated skill sooner than they expect.

Product Audit: Strengths & Improvement Areas

STRENGTHS

- ✓ Structured curriculum with clear week-by-week learning roadmap
- ✓ Tiered course offerings address multiple customer segments
- ✓ Free AI Business Toolkit provides strong acquisition funnel
- ✓ Assessment quiz builds confidence before purchase

IMPROVEMENT OPPORTUNITIES

- ✓ Manual payment flow reduces checkout trust
- ✓ Inconsistent branding affects credibility
- ✓ Job subscription pricing lacks upfront visibility

UX Audit Summary

Navigation

Jobs experience lacks filtering, visual hierarchy, and clear discoverability, making navigation less intuitive than the course experience.

Trust

Strong trust indicators (ratings, success metrics, and free assessment) build confidence before purchase.

Payment & Checkout

Manual payment flow and limited payment transparency reduce user confidence at the final conversion stage.

UI Consistency

Minor branding inconsistencies (logo usage and team imagery) slightly weaken an otherwise professional interface.

Key Insight

Book My Mentor excels in structured learning and career-focused content. The biggest opportunity lies in strengthening trust, transparency, and the payment experience to improve conversions.

Product Recommendations

Product Recommendation	Problem Solved	Target	Priority	Expected Outcome
Integrate a secure online payment gateway to replace the manual callback payment process.	Manual payment flow reduces trust and creates checkout friction.	 Both Segments	 P0	Higher payment completion and improved conversion rate.
Strengthen trust signals through verified mentor profiles, learner testimonials, and placement proof.	Limited credibility during the evaluation stage.	 Both Segments	 P0	Increased user confidence and stronger platform trust.
Standardize branding across all pages with consistent logos and professional team assets.	Inconsistent branding weakens credibility and brand recall.	 Both Segments	 P1	Improved brand consistency and first impressions.
Redesign the Jobs & Internships experience with filters, card-based listings, and better visual hierarchy.	Poor discoverability and inconsistent browsing experience.	 Both Segments	 P1	Higher engagement and improved job application experience.
Display job subscription pricing and benefits before enrollment to improve transparency.	Hidden upgrade costs reduce purchase confidence.	 Professionals	 P1	Improved pricing transparency and informed decisions.

Empathy Map & Customer Journey

Primary Persona: Priya Sharma (Final-Year Engineering Student)

Business Model Canvas

Validated through product audit: Course pricing and job subscription were confirmed from the live platform. Referral and B2B revenue remain assumptions due to limited public information.

Market Opportunity Analysis

MARKET TYPE & INDUSTRY TRENDS

Existing, fast-growing market:

Large and rapidly growing market driven by career upskilling, EdTech, and AI-led workforce transformation.

Key trend:

AI is reshaping entry-level roles, increasing demand for product thinking, business strategy, and human-centric decision-making skills.

GROWTH POTENTIAL

- AI adoption is accelerating career transitions into Product and Strategy roles.
- Tier-2 and Tier-3 learners increasingly prefer affordable, mentor-led online programs.
- Employers value practical project experience alongside certifications.

TAM ~₹4,200 Cr

India's online career upskilling & professional learning market

SAM ~₹850 Cr

Learners actively pursuing Product, Project Management, and career-transition programs.

SOM ~₹15–25 Cr

Illustrative 3-year obtainable market for a mentor-led digital platform.

Illustrative market estimates based on publicly available India EdTech and upskilling reports. SAM and SOM are directional estimates due to the absence of publicly reported Product Management-specific market sizing.

Competitive Positioning

Feature	Book My Mentor	Product School	UpGrad / Simplilearn PM	Mentor Platforms (Topmate, ADPList, etc.)
1:1 Mentorship	Yes (up to 25 hrs)	Limited	Limited/Add-on	Core offering
Certification	Yes	Yes (premium priced)	Yes	No
Live Projects	Yes (3 live projects)	Case-based projects (US-focused)	Partial	Ad-hoc
Pricing	₹6,000–₹15,000, tiered by segment	High (USD pricing)	Mid-High	Subscription, ongoing cost
Career Support	Job board + mentorship (stats require stronger consistency)	Strong brand, US-focused	Placement assistance	None

COMPETITIVE ADVANTAGE

Book My Mentor occupies a differentiated position between premium PM academies and mentor marketplaces by combining affordable pricing, structured learning, live projects, mentorship, and career support. Strengthening trust signals and platform consistency can further reinforce this competitive advantage.

Go-To-Market & Success Metrics

GTM STRATEGY

Positioning: Position Book My Mentor as a career acceleration platform combining mentorship, live projects, and placement support.

Pricing: Maintain tiered pricing while improving transparency of pricing and subscription benefits.

Channels: Campus ambassadors • LinkedIn thought leadership • YouTube content • Student referrals

Referral Loop: Reward learners for sharing project outcomes, referrals, and placement success stories.

Partnerships: Partner with startups, student clubs, and industry mentors to expand learning opportunities.

Retention: Alumni community, advanced learning tracks, and ongoing mentorship beyond course completion.

KEY SUCCESS METRICS (KPIs)

- **Activation Rate**
% of learners completing the first module within 7 days.
- **Certificate Completion Rate**
% of learners completing the full program.
- **Placement/Promotion Conversion**
% of learners securing internships, placements, or career transitions.
- **Referral Rate**
% of new enrollments generated through referrals.
- **NPS**
Net Promoter Score measuring learner satisfaction and advocacy.
